OFFICIAL SAFETY ACTIVITY BOOK!
CIRCLE OR PUT A HAZARD STICKER ON ALL THE POTENTIAL SAFETY HAZARDS

Answers: Obey all warning signs and stay away from fences near substations. If a ball goes over the fence of a substation, don’t try to get it. Call Oncor. No jumping on or touching the green boxes called transformers.

Answers: Don’t play with flying toys such as airplanes, drones or kites near power lines. Never climb or put signs on a utility pole. They carry electricity too!
**WHAT ARE YOU ALLOWED TO PUT INTO AN OUTLET?**

Remember, only plugs can go into electrical outlets. Pull plugs out slowly by the base of the plug not the cord!

**MATCH WHICH THINGS YOU CAN TOUCH WITH WET HANDS**

If you just washed your hands or took a shower and are wet, don’t touch electrical objects! Make sure your hands are completely dry. Keep electrical objects away from places with water like the sink or tub.

- **COINS?**
- **PLUGS?**
- **PLUGS WITH BROKEN CORDS?**
- **SCISSORS?**
- **KEYS?**
- **SOAP?**
It's important to have a safety kit in case the power goes out during a storm. Check the boxes as you add these items to your safety kit at home.

**Flashlight**

**First Aid Kit**

**Water Bottles**

**Batteries**

What else do you want in your safety kit?
AFTER A STORM, LOOK BEFORE YOU PLAY!

Have an adult help you check outside before you play after a storm. Fallen branches can be laying on a power line or may have knocked a line down. Walk away from any areas with power lines near puddles of water and call 911.
4 TIPS TO BE SUPER S.A.F.E:
FILL IN THE BLANK

Speak up if you see a broken _ _ _ _ _ line.

Avoid any area where power _ _ _ _ _ are down.

Find an adult to call _ _ _ _ and report the problem.

Enjoy electricity and stay _ _ _ _ !

Answers:

power lines
911 safe
